# OrCam MyEye 2.0

For blind and partially sighted people, an artificial vision device with a lightweight smart camera that instantly reads text aloud – from any surface – and recognizes faces, products, and money notes in real time

**All packed into a tiny device the size of your finger.**

## **Read Text.**

Reads any printed or digital text:  
newspapers, books, restaurant menus, signs,  
product labels, computer and smartphone screens

**All become accessible to you in an instant.**

## **Recognize Faces.**

Real-time identification of faces. Recognize products,  
credit cards, money notes and more.

**Great in social situations and gives independence.**

## **For Everyone.**

All you have to do is point. Recognizes simple  
hand gestures. Ideal for use at work or at school,  
at home or on the go.

**Good for all ages and any level of vision.**

## **OrCam MyEye 2.0**

**Tiny, lightweight, convenient, and completely mobile.**

- Weighs only 22.5 grams / 0.8 ounces
- Works in dark areas with built-in LEDs
- Snaps onto any eyeglass frame magnetically
- Hear with built-in HD mini speaker
- Touch bar for easy “swipe” control
- Instant WiFi software updates

**Our Vision. Empowering People.**

"This intelligent device gives me independence in my everyday life. For me, as for many partially sighted people, the loss of my ability to read is the hardest. OrCam MyEye is able to fill this void and so much more..."

**Sébastien Joachim, Professional Boxer.**
